

INTRODUCING The ECOGARD S11642 Synthetic Oil Filter

ECOGARD® is pleased to announce the S11642, spin-on oil filter, for select 2019 and newer General Motors vehicles.

COMPARISON: S11642 VS. X2222/S2222

Although they look similar and have the same thread, the S11642 is not interchangeable with the X2222 or S2222. **The ECOGARD S11642 was uniquely designed to fit and function as a replacement for General Motors part number PF64.**

GM recommends this part number for specific applications that require a pressure relief valve opening pressure setting of 22 PSI. For comparison, X2222 and S2222 are both direct replacements of ACDelco PF48/PF48E, which features a pressure relief valve that is set to open at 15 PSI.

**ENGINEERED TO
LAST UP TO 10,000
MILES & FILTER
2X THE DIRT.**
